THERMOCHIMICA ACTA, VOLUME 37 (1980)

SUBJECT INDEX

Accelerating rate calorimeter,
thermal hazard evaluation by an — (Townsend, Tou) 1
Actinides,
thermodynamics of thiocyanate complexes of trivalent — and lanthanides (Khopkar, Mathur) 71
Alkali persulfate,
thermal and X-ray investigation of binary cobalto-cobaltic oxide— — systems (Al-Shukry, Jasim) 97
Alumina,
effect of addition of some oligomers on the surface characteristics of — (El-Akkad) 279
Aluminium,
thermometric determination of small amounts of — in brass (Sajó, Brandštetr) 325
Amine mixtures,
solid—liquid phase diagrams of mixtures containing substituted phenols and — (Palepu, Moore) 109
Ammonium halides,
thermoanalytical study on the reactions of selected rare earth oxides with — (Hölsä, Niinistö) 155
Ammonium paratungstate,
the effect of the — source on the tungsten crystallite size (Lake, Ott) 105
Apical granulomas,
characterisation of — by differential scanning calorimetry (D'Ascenzo et al.) 333
Aquopentamminecobalt(III) hexathiocyanatochromate(III),
thermal studies on the decomposition of — (House, Jepsen) 49

Brass,
thermometric determination of small amounts of aluminium in — (Sajó, Brandštetr) 325

Calcium oxalate monohydrate,
thermal decomposition studies. Part XII. Kinetics of dehydration of —. Multiple correlation with heating rate and sample mass (Ninan, Nair) 161
Carbon black,
electrothermal analysis of — loaded polymers (Sircar et al.) 315
Carbon monoxide,
thermal decomposition of europium sulfite trihydrate in — (Leskelä, Niinistö) 125
Chromindur alloys,
some applications of thermomagnetometry to the study of — (Gallagher et al.) 291
$[Co(en)_3]X_3$,
an electrical conductivity study of the thermal dissociation of $[Co(NH_3)_6]X_3$ and — (Wendlandt) 89
$[Co(NH_3)_6]X_3$,
an electrical conductivity study of the thermal dissociation of — and $[Co(en)_3]X_3$ (Wendlandt) 89
β-$Co_2(OH)_3Cl$,
thermal analysis of — and $Zn_5(OH)_8Cl_2 \cdot H_2O$ (Rasines Morales de Setién) 239
Cobalto-cobaltic oxide,
thermal and X-ray investigation of binary — —alkali persulfate systems (Al-Shukry, Jasim) 97
Cobaltous compounds,
mechanism of the decomposition of — in vacuo (Mehandjiev, Nikolova-Zhecheva) 145
Competitive reactions,
the effect of heating rate upon the coupling of complex reactions. I. Independent and — (Flynn) 225
Complex reactions,
the effect of heating rate upon the coupling of —. I. Independent and competitive reactions (Flynn) 225
Composite beams,
the use of — to measure the dynamic mechanical properties of semi-rigid solids (Kusy, Greenberg) 53

Copper(II) glutarate trihydrate,
thermal decomposition of —. Part I. The mechanism of dehydration of — (Bassi, Khajuria) 179
Copper(II) ions,
thermochemical study of the stepwise protonation of 1,10-diaza-4,7-dithiadecane, and its complex formation with — and nickel(II) ions in aqueous solution (Herman et al.) 301

1,10-Diaza-4,7-dithiadecane,
thermochemical study of the stepwise protonation of —, and its complex formation with copper(II) and nickel(II) ions in aqueous solution (Herman et al.) 301
Disaccharides,
kinetics of the thermal reactions of some — (Weill et al.) 65
Dynamic viscosity,
— of some silicate melts to 1688°C under atmospheric pressure (Piwinskii, Weed) 189

Electrical conductivity—differential thermal analysis,
a convenient — apparatus (Wendlandt) 117
Equilibrium phase diagrams,
comments on calorimetric determination of — of inorganic systems (Castanet) 259
Europium sulfite trihydrate,
thermal decomposition of — in carbon monoxide (Leskelä, Niinistö) 125

Fatty acid polymorphs,
determination of the composition of mixtures of — by DTA (Garti et al.) 131

Ge,
phase diagram of the ternary system — —Te—Se (Bordas et al.) 197
Gypsum,
the determination of — and lime in small samples of set plaster by a.DSC—computer method (Dunn et al.) 337

Hydrocerussite,
thermal decomposition of — ($2\,PbCO_3 \cdot Pb(OH)_2$) in carbon dioxide atmosphere (0—50 atm) (Yamaguchi et al.) 79

Independent reactions,
the effect of heating rate upon the coupling of complex reactions. I. — and competitive reactions (Flynn) 225
Inorganic systems,
comments on calorimetric determination of equilibrium phase diagrams of — (Castanet) 259
Iron alloy,
nitride precipitation in a powdered — studied by thermoanalytical methods (Pompe) 37

Lanthanides,
thermodynamics of thiocyanate complexes of trivalent actinides and — (Khopkar, Mathur) 71
Laser-flash,
automation of — thermal diffusivity measurements (Wang et al.) 287
Lime,
the determination of gypsum and — in small samples of set plaster by a DSC—computer method (Dunn et al.) 337

Manganese(III) selenito complexes,
thermal decomposition studies on — (Khandelwal, Mallela) 261
Monoamides,
melting behaviour of a series of — (Carfagna et al.) 31

Nickel(II) ions,
thermochemical study of the stepwise protonation of 1,10-diaza-4,7-dithiadecane, and its complex formation with copper(II) and — (Herman et al.) 301
Nitride precipitation,
— in a powdered iron alloy studied by thermoanalytical methods (Pompe) 37

Phenols,
solid—liquid phase diagrams of mixtures containing substituted — and amine mixtures (Palepu, Moore) 109
Plaster,
the determination of gypsum and lime in small samples of set — by a DSC—computer method (Dunn et al.) 337
Polyethers,
the thermal properties and solvent stress cracking resistance of some new — (Adam et al.) 173
Polymers,
electrothermal analysis of carbon black loaded — (Sircar et al.) 315

Rare earth oxides,
thermoanalytical study on the reactions of selected — with ammonium halides (Hölsä, Niinistö) 155
Rice-husk ash,
thermal treatment of —: effect of time of firing on pore structure and crystallite size (Ibrahim et al.) 347
Rice-husk ash,
study of — silica by infrared spectroscopy (Ibrahim et al.) 307
Rice-husk ash,
surface properties of silicas produced by thermal treatment of — (Hanafi et al.) 137

Salicylic acid,
the chelation of esters of — with zinc group metals (Vir, Pannu) 253
Se,
phase diagram of the ternary system Ge—Te— — (Bordas et al.) 197
Semi-rigid solids,
the use of composite beams to measure the dynamic mechanical properties of — (Kusy, Greenberg) 53
Silica,
study of rice-husk ash — by infrared spectroscopy (Ibrahim et al.) 307
Silicas,
surface properties of — produced by thermal treatment of rice-husk ash (Hanafi et al.) 137
Silicate melts,
dynamic viscosity of some — to 1688°C under atmospheric pressure (Piwinskii, Weed) 189
Sodium sulfide,
comments on thermochemical data and fusion temperature for pure — (Warnqvist) 343
Solid state decompositions,
the kinetic study of isothermal —. The influence of sample variables (Norris et al.) 209
Sulfur retention,
the optimal temperature of — (Shen et al.) 247
Surface characteristics,
effect of addition of some oligomers on the — of alumina (El-Akkad) 279
Surface characteristics,
effect of thermal dehydration on — of titania gel (El-Akkad) 269

Te,
phase diagram of the ternary system Ge— — —Se (Bordas et al.) 197
Thermal diffusivity,
automation of laser-flash — measurements (Wang et al.) 287
Thermal hazard evaluation,
— by an accelerating rate calorimeter (Townsend, Tou) 1
Thermovoltaic detector,
a — for thermal decomposition reactions (Wendlandt) 121
Thiocyanate complexes,
thermodynamics of — of trivalent actinides and lanthanides (Khopkar, Mathur) 71
Titania gel,
effect of thermal dehydration on surface characteristics of — (El-Akkad) 269
Tungsten,
The effect of the ammonium paratungstate source on the — crystallite size (Lake, Ott) 105

Zinc group metals,
the chelation of esters of salicylic acid with — (Vir, Pannu) 253
$Zn_5(OH)_8Cl_2 \cdot H_2O$,
thermal analysis of β-$Co_2(OH)_3Cl$ and — (Rasines, Morales de Setién) 239
